

A Little Piece Of England

Report and speeches at the [third] annual meeting of the Church Pastoral-aid Society, May 8, 1838.

In late February 1994, Andrew Gurr was perusing the appointments pages of the Sunday Times when an advert caught his eye: 'Wanted: Chief Executive of the Falkland Islands Government'. Intrigued, he decided to follow it up... Nobody was more surprised than Andrew when, a few months later, he was offered the position. There followed five remarkable years running one of the smallest governments in the world and acting as Governor for nearly a year of that time. A more curious and multi-facted job would be hard to find. Nineteen years after the war and 8,000 miles from the mother country, are these intensely patriotic islands, or merely an anachronism and an embarrassment? What is it really like to live and work there? The answers are revealed in this book, where Andrew shows his understanding of the people, the heritage, the wildlife and the landscape of this breathtakingly beautiful part of the world. This book is at times moving, at times humourous, and always captivating. It is a remarkable memoir of an opportunity that only comes to a selected few.

Defoe wrote a three volume travel book, "Tour Through the Whole Island of Great Britain" (1724-27) that provides a vivid first-hand account of the state of the country. It is often-quoted as a source on British social and economic history in the early 18th century. Different to earlier descriptions of Great Britain, it is based on Defoe's first-hand knowledge and written in a subtly amusing style. The work has appeal to walkers, country-house visitors, and lovers of the British countryside as well as students of literature, industrial archaeology, and local history. This is an edited reprint of the original work by Defoe.--London Review, Vol. 14 No. 4, 1992.

Jesus Rojo is used to being unpopular. As the youngest investigating judge ever appointed he had already ruffled the feathers of those who place seniority over talent. When he is handed a case of institutional corruption that has been lying in the long grass for years, he suspects that he is being set up to fail. With his small team of detectives, he begins to unpick the case and uncovers a money trail linking the main suspect with a top-quartile investment fund in the City of London that seems to invest in criminal activity as a means of diversification. In particular, the role played by the CEO of the fund, Derek Sanderson, comes under scrutiny. Separately, the National Crime Agency is investigating Sanderson and the fund's links with an operation in Brighton that sells Spanish villas off-plan. The local police suspect that this is a scam and that the deposits paid will disappear along with the perpetrators. The two investigations intertwine as the detectives in the UK and Spain close in on the suspects.description here
